Next-Generation Video Coding and Streaming Benny Bing

Reviews the new High Efficiency Video Coding (HEVC) standard and advancements in adaptive streaming technologies for use in broadband networks and the Internet

This book describes next-generation video coding and streaming technologies with a comparative assessment of the strengths and weaknesses. Specific emphasis is placed on the H.265/HEVC video coding standard and adaptive bit rate video streaming. In addition to evaluating the impact of different types of video content and powerful feature sets on HEVC coding efficiency, the text provides an in-depth study on the practical performance of popular adaptive streaming platforms and useful tips for streaming optimization. Readers will learn of new over-the-top (OTT) online TV advancements, the direction of the broadband telecommunications industry, and the latest developments that will help keep implementation costs down and maximize return on infrastructure investment.

- Reviews the emerging High Efficiency Video Coding (HEVC) standard and compares its coding performance with the MPEG-4 Advanced Video Coding (AVC) and MPEG-2 standards
- Provides invaluable insights into the intra and inter coding efficiencies of HEVC, such as the impact of hierarchical block partitioning and new prediction modes
- Evaluates the performance of the Apple and Microsoft adaptive streaming platforms and presents innovative techniques related to aggregate stream bandwidth prediction, duplicate chunk
- Includes end-of-chapter homework problems and access to instructor slides

Next-Generation Video Coding and Streaming is written for students, researchers, and industry professionals working in the field of video communications.

Benny Bing has worked in academia for over 20 years. He has published over 80 research papers and 12 books, and has 6 video patents licensed to industry. He has served as a technical editor for several IEEE journals and an IEEE Communications Society Distinguished lecturer. He also received the National Association of Broadcasters (NAB) Technology Innovation Award for demonstrations of advanced media technologies.

From reader reviews:

Teresa Fernandez:

A lot of people always spent their own free time to vacation or perhaps go to the outside with them household or their friend. Are you aware? Many a lot of people spent they will free time just watching TV, as well as playing video games all day long. In order to try to find a new activity honestly, that is look different you can read a book. It is really fun for you. If you enjoy the book which you read you can spent all day every day to reading a publication. The book Next-Generation Video Coding and Streaming it is very good to read. There are a lot of people that recommended this book. These were enjoying reading this book. Should you did not have enough space to create this book you can buy the particular e-book. You can m0ore easily to read this book through your smart phone. The price is not very costly but this book offers high quality.

Mary Gilbert:

Playing with family in the park, coming to see the coastal world or hanging out with good friends is thing that usually you might have done when you have spare time, then why you don't try matter that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition details. Even you love Next-Generation Video Coding and Streaming, it is possible to enjoy both. It is excellent combination right, you still want to miss it? What kind of hangout type is it? Oh occur its mind hangout folks. What? Still don't understand it, oh come on its named reading friends.

Ann Conley:

This Next-Generation Video Coding and Streaming is great e-book for you because the content that is certainly full of information for you who all always deal with world and also have to make decision every minute. This particular book reveal it details accurately using great coordinate word or we can point out no rambling sentences in it. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only offers you straight forward sentences but difficult core information with splendid delivering sentences. Having Next-Generation Video Coding and Streaming in your hand like getting the world in your arm, details in it is not ridiculous 1. We can say that no book that offer you world within ten or fifteen moment right but this guide already do that. So , it is good reading book. Hey Mr. and Mrs. busy do you still doubt this?

Donald Lee:

The book untitled Next-Generation Video Coding and Streaming contain a lot of information on this. The writer explains the girl idea with easy way. The language is very clear and understandable all the people, so do not really worry, you can easy to read the idea. The book was authored by famous author. The author gives you in the new period of literary works. It is easy to read this book because you can read on your smart phone, or product, so you can read the book with anywhere and anytime. If you want to buy the e-book, you

can open their official web-site and also order it. Have a nice examine.
