Most of us are no strangers to health problems, illness, or pain, but what if there's a solution to restore our well-being that doesn't involve drugs, surgery, or other medical procedures? Well, there is, and you'll find it within your own body. That's right! Your body has a built-in capacity to heal itself—a remarkable system of self-repair that works day in and day out—and improving its ability to heal is within your control. Yet most people don't fully grasp the body's incredible power to heal itself, largely because traditional medicine has led us to believe that health comes from the outside in and not from the inside out. Did you know, for example, that approximately 50 percent of all illnesses, when left alone, will eventually heal themselves? If you choose to take care of your body every day, it will reward you a thousand times over—improving your odds against everything from heart disease, cancer, and diabetes; to arthritis, allergies, colds, late-winter flu, and more. Remember, you have the power to be and stay healthy because healing truly comes from within. The Power of Self-Healing will help you accomplish all this and more!
