**The bestselling guide to DSLR photography - now updated for the latest technology and tools!**

This new edition gets you up to "shutter speed" on the latest camera technologies, including the new consumer-targeted full-frame models and pro-features that are now incorporated in consumer-focused units. Veteran author and professional photographer Robert Correll walks you through how a camera works, what lenses to use, how to set exposure, and how to capture the shots that define a portfolio.

Fully updated to cover the latest generation of cameras and boasting more than 700 pages, this must-have resource explores the latest in tools and offers additional content, including video and interactive tools so that you can enhance your photography knowledge.

- Covers the basics of DSLR mechanics and explains how settings affect the final photo
- Reviews lenses and walks you through choosing and applying the right lens for your situation
- Discusses how aperture, shutter speed, and ISO combine to determine how your photo will look
- Demystifies how to light a photo, from using natural light to flash to artificial lighting
- Helps you shooting high-quality video and film

*Digital SLR Photography All-in-One For Dummies, 2nd Edition* is packed with everything you need to get your idea photo, from portraits to action shots to night photos and so much more!
