Dog lovers who haven't raised puppies from birth have missed out on one of the most remarkable and adorable times in a dog's life. From one to twenty-one days old, puppies undergo great changes, from needing their mothers' complete care to opening their eyes and ears to the outside world, growing, stretching their legs, and learning to become the dogs that they are. Author/photographer (and new mother) Traer Scott's love of dogs shines through these intimate images of a range of breeds and types, from champion pups to shelter strays, all of them irresistible. Including an introduction on puppies' development and the importance of their welfare, this delightful book reveals young dogs as they embark on the adventures of growing up.
