Based on the Competency Based Training (CBT) methodology, Fundamentals of Motorcycle Repair, First Edition offers comprehensive and up-to-date coverage of the tasks required by the CBT framework. Fundamentals of Motorcycle Repair was written with clarity and precision in a concise format under the guidance of a consortium of expert professionals in the motorcycle training field. This format ensures student comprehension and encourages critical thinking that can be applied in the field. Motorcycle technicians need to know how to safely and effectively perform maintenance, diagnose, and repair motorcycle systems. Fundamentals of Motorcycle Repair provides the critical knowledge and skills necessary for future technicians to perform these essential tasks. **RELAXED, READABLE TEXTBOOK** Fundamentals of Motorcycle Repair is written in a clear, accessible language creating a learning environment in which students feel comfortable with the material presented. That comfort level creates an effective and engaging learning experience for students, translating into better understanding and retention, ultimately leading to better pass rates. **REINFORCEMENT OF CONCEPTS** This text is written with the understanding that students require a solid foundation in the basics, followed by appropriate reinforcement of the concepts learned. Reinforcement is provided through visual summaries of skills and procedures. The skills learned are then reinforced through practical tasks performed within accredited training and work environments. Each chapter concludes with CBT-type questions to help students assess critical thinking skills and measure comprehension. **HIGHLY DESCRIPTIVE AND DETAILED ART PROGRAM** Motorcycle technology is a technical subject area. With this in mind, this text includes a wealth of photographs and illustrations to help students visualize motorcycle systems and mechanical concepts.
