**The European Information Society (Lecture Notes in Geoinformation and Cartography)** Sara Fabrikant, Monica Wachowicz

This book presents a state-of-the-art overview of on-going GI Science research, as presented at the 10th Conference of the Association of Geographic Information Laboratories for Europe (AGILE), held in Aalborg, Denmark. Included are 28 fully peer-reviewed papers covering basic GI Science research themes such as interoperability, geo-ontology, data representation, usability, and data quality; technological advancements (i.e., spatial web services and spatial data infrastructures); as well as applied research on environmental modeling and management, including mobile and collaborative applications.
