... a unique lesson in unintended consequences and discovery, and how this example points to hope for a green future where we still benefit from the advantages technology gives us. The forward, now filled with so many serendipitous lessons I am still discovering them, was just recently re-written for Middle School Students. The original coffee table book, with 30 fine art full- color images of Florida's rockets and wild birds from Cape Canaveral, is all still there. The message in the forward for the children is also there for those who have not forgotten who they were, once upon a time. It also presents a fine opportunity for parents who might want to read it to their kids a bit younger. It is light reading, with 30 full color images, each having brief backstories that are fun to share while teaching them the importance of reading. I am not an educator, and that is why I call a Primer. I purposely concentrated on the broad concepts of cooperation and civic responsibility. I also tried my best guess at speaking in the tone of youngsters. But as an artist, I like to play with the language, and, so am not always constrained by 'grammar', trying for a more colloquial voice.
