The Little Universe Jason Matthews

What if you could create a universe: a miniature self-enclosed universe? Imagine having probing cameras that could focus to any star or planet looking for life. And once you found life, what if you could accelerate time and watch it evolve? What might you find?

These are not the questions Jon Gruber ponders as he pedals to his next carpentry job. Over thirty and unmarried, he doesn't even own a car. But a new assignment challenges him to rethink his place in the world. Is he a loser? Or is he about to become a partner in an experiment of phenomenal discovery?

Webster Adams, astronomer, inventor, and Jon's latest client, performs such an experiment. To Webster's amazement, he finds planets and cultures beyond his wildest dreams. His little universe turns into a discovery machine--an overnight goldmine. He and his crew observe societies so far past them on levels of technology and spirituality, that the world will be forever changed.

Webster's lovely daughter, Whitney, also overwhelms Jon. She opens his eyes to the deeper meanings within the experiment by finding the most advanced beings within the project--the spirit guides from Theta 7.

The Little Universe is a mind expanding concept. For Webster Adams, one question immediately comes to light. "If I can create a universe," he wonders, "then who created ours?"

Can it be proven that some form of God exists? Or is life random and free-flowing without purpose? Along with Jon, you, the reader, will be presented a new perspective on life and your role in the great mystery of the universe.

"...quite an inventive story."

"...before you know it, you can't put the book down."

"...one of those rare books, light enough on the surface to be a fun summer read, but deep enough to keep you thinking about it long after you've turned the last page."

"I can honestly say I didn't want it to end."

Subjects include: reincarnation, metaphysical, psychic, telepathic, aliens, inspirational, new adult, past lives, spirituality, spiritual journey, meditation, futuristic, new thought, new age, Akashic records, Edgar Cayce, psychics, evolution, alien contact, enlightenment, awakening book, afterlife, visionary metaphysical fiction

From reader reviews:

Timothy Bennington:

What do you consider book? It is just for students since they are still students or the idea for all people in the world, what best subject for that? Merely you can be answered for that concern above. Every person has diverse personality and hobby for every single other. Don't be pressured someone or something that they don't need do that. You must know how great in addition to important the book The Little Universe. All type of book could you see on many methods. You can look for the internet sources or other social media.

Jean Willis:

Nowadays reading books become more than want or need but also turn into a life style. This reading addiction give you lot of advantages. The benefits you got of course the knowledge the particular information inside the book in which improve your knowledge and information. The information you get based on what kind of book you read, if you want have more knowledge just go with knowledge books but if you want really feel happy read one together with theme for entertaining including comic or novel. The The Little Universe is kind of e-book which is giving the reader erratic experience.

Christopher Forney:

Information is provisions for individuals to get better life, information today can get by anyone with everywhere. The information can be a understanding or any news even a huge concern. What people must be consider whenever those information which is from the former life are difficult to be find than now is taking seriously which one works to believe or which one often the resource are convinced. If you have the unstable resource then you have it as your main information it will have huge disadvantage for you. All those possibilities will not happen with you if you take The Little Universe as your daily resource information.

Pam Boyd:

This book untitled The Little Universe to be one of several books in which best seller in this year, that is because when you read this reserve you can get a lot of benefit upon it. You will easily to buy this specific book in the book retail store or you can order it through online. The publisher with this book sells the e-book too. It makes you quicker to read this book, since you can read this book in your Cell phone. So there is no reason to you personally to past this guide from your list.
