Having met Beverly Ingle and hearing her speak about design thinking, I was enlightened and enthused. With a depth of knowledge and obvious passion for the usage of design thinking, she has already helped many business people, myself included, inject greater creativity into problem solving to deliver better results—something that is a must for left-brainers! She has an amazingly refreshing ability to create deep understanding within her audience, and a hands-on, practical approach ensures that the results are manageable and within your grasp.
